

A close-up, horizontal shot of a gold-colored fountain pen. The pen is positioned in the upper half of the frame. From the nib, a thick, wispy plume of white smoke or vapor rises and spreads outwards, filling much of the background. The background is dark, making the smoke and the metallic pen stand out.

Welcome!

Let's Get Started...

This guide is a breakdown of how
your course will work once you enroll!

Your payment plan determines course flow

Pay in Full - Receive all coursework - \$2,540 - p. 2

Monthly Payment Plans - Coursework released in increments. p. 3

- \$99 Monthly Payment Plan I - Total tuition is \$2,640
- \$89 Monthly Payment Plan II - Total tuition is \$2,740

Important Program Information - p. 6

Program Goals and Objectives - p. 7

Tools & Supplies - p. 8

Project Shipment Information - p. 9

If you prefer all course material up front, simply select the “Pay in Full” option - \$2,540.

Once you enroll under the full payment plan we will:

Email your course information that same day so you can get started.

Send your course materials which includes:

- 2 Binders for your printed lessons to set up at your workbench
- All Advanced Lessons printed and 3 hole punched
- MGS Welcome Information

MGS 7 Hands-On Projects and tools are shipped based on unit completion. Please see the outline on p. 9

You have options: Take exams online or mail back the printed exam sheets provided. There are no due dates for any coursework or projects.

Payment plan options:

Enroll for just \$99 Down!

Payment Plan I

~~\$2,740~~
\$2,640

Pay \$99 down, and 25
monthly payments of \$99, with a
final payment of \$66

Payment Plan II

\$2,740

Pay \$99 down, and 29
monthly payments of \$89, with a
final payment of \$60

Please go to the following page for your next steps!

If you enroll under a payment plan, this is how your course will be delivered:

MGS will email your course login information the same day you enroll so you can get started. You will have access to the first unit online. Once you complete the first exam, the second unit will become available.

Your first shipment of course material will be sent with UPS tracking. This shipment includes:

- 1 Binder for your printed lessons to set up at your workbench
- First two units of your program, printed & 3 hole punched
- MGS Welcome Information

The next unit of study material will become available with each monthly payment received.

You have options: Take exams online or mail back the printed exam sheets provided. There are no due dates for any coursework or projects.

MGS 7 Hands-On Projects and tools are shipped based on unit completion. Please see the outline on p. 9

If you wish to have access to the next unit but do not want to wait for your set billing date, you can make additional payments.

- ✓ You can make a payment online, anytime or call student services at 800.493.4114. We are available Monday - Friday from 8:30AM - 4:30PM ET.
- ✓ Additional payments allow you to access and complete your coursework more quickly. They do not replace your billing date. For example, if your billing date is set on the 5th of each month and you make a payment on the 1st, your card will still be charged on the 5th.
- ✓ To gain access to all of your course lessons, you may pay off your balance at any time by contacting student services.

Important Information!

- You will have up to 2 years to complete your program
- Your course is self-paced, meaning there are no set due dates for exams or projects
- Questions? Please email **info@mgs.edu**
- Curriculum questions for MGS's Master Gunsmith, please email **instructor@mgs.edu**

Program Goals and Objectives

To provide quality education to students seeking to prepare themselves for a career in gun repair or entry level position in the gun-repair industry.

To provide feedback from our Master Gunsmith to guarantee that lesson materials are both applicable and up-to-date with regard to today's industry standards.

To assist students in realizing their goals throughout their program by encouraging ongoing professional development and lifelong learning.

To prepare graduates for an entry level position in the gun repair field through a curriculum that incorporates practical application of learned skills.

To continually revise, update, and/or add new course material when appropriate, offering the most current information and meeting industry standard.
